Prob?em Solvers

SKILLS | CONFIDENCE | ABILITY

ProblemSolvers is a fun and interactive program for kids that develops leadership and decision-making skills while building confidence, interpersonal ability and self-esteem.

Working with a skilled Child and Youth Care Worker, the group constantly learns and tests themselves, participating in hilarious challenges, innovative initiative tasks, unique mindbenders and other group goals that are directly related to what they just learned.

TURN YOUR KIDS INTO PROBLEMSOLVERS TODAY!

BASIC INFORMATION

ProblemSolvers is an eight week leadership development program for kids aged 6-12. Each session teaches a specific skill, then allows kids to explore that skill as a group by working together on a challenge, activity or initiative task. Parents keep pace of the action through the use of a **ProblemSolvers Passport**. In it, participants record and reflect on everything they do and give feedback to each other. The skills change every week, and build on each other making the activities more challenging as they go. **ProblemSolvers** teaches important skills such as:

- Problem Solving Process
- Speaking vs. Listening
- Risk & Assessment
- Communication
- Empathy and Impact
- Learning From Actions
- Feel -Think -Do
- Accepting Feedback
